REASONS FOR ALLOWANCE

1. In response to the appeal brief filed 7/19/2004, applicant's arguments have been considered and found persuasive, in that the relied upon prior art Epworth does not teach a driver for a vertical cavity surface emitting laser (VCSEL), but an edge emitting laser and Epworth, which teaches the spectral purity control of a laser output signal, does not teach a stabilizer module that stabilizes modal gains of the **multiple modes** of the VCSEL, as recited in the claims.

2. The following is an examiner's statement of reasons for allowance:

Claims 1-22 are allowed mainly because the cited prior art do not teach or fairly suggest a VCSEL comprising a stabilizer module for stabilizing plural modal gains of multiple modes of the VCSEL by increasing the current through the contact region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quyen P. Leung whose telephone number is (571)272-1943. The examiner can normally be reached on 8-4:30, M-F.
